

# Testimonial

Larry Jones, Thoroughbred Trainer, had his horse "Safely Spun" develop Salmonella Colitits in April 2012 after minor chip removal surgery. Anti-biotics made it worse. The horse got to the point that they thought they would have to euthanize him. Dr. Larry Caudill, DVM gave him EquiOtic. He went back to Churchill Downs and back into work in October coming back from the brink of death. Think what EquiOtic can do for your healthy horse. Look for this video testimonial soon at [www.equiOtic.com](http://www.equiOtic.com).

**BEFORE**

**April 2012**

**AFTER**

**October 2012**
